CPCS A09A Forward Tipping Dumper - Wheeled

Course Aims

To provide thorough practical and theory training in operating a Forward Tipping Dumper, to enable the candidate to competently and safely carry out the role and pass the CPCS Theory and Practical Tests. **Course Content:**

- Carrying out pre-start and running checks.
- Set the Dumper for site & road travel.
- Travel over differing types of terrain, including rough undulating ground both loaded and unloaded.
- Travel up & down substantial inclines loaded & unloaded.
- Position dumper to receive loads.
- Comply with loading procedures.
- Discharge loads into trenches & over edges.
- Place machine in and out of service condition.
- Explain loading and unloading procedures on & off of Transporter.
